RESULTS IN 24-72 HOURS

ViroKey SARS-CoV-2 RT-PCR Test is intended for a qualitative detection of nucleic acid from SARS-CoV-2 in nasopharyngeal and oropharyngeal swabs from individuals. Results are for the identification of SARS-CoV2 RNA.

OUR EQUIPMENT

VELA SENTOSA SX101

(Automated Lysis, Extraction & PCR Set-Up /NGS Library Prep)

VELA SANTOSA SA 201

PCR System

MULTI-GENE ANALYSIS

ORF1a and Rdp Gene

TESTS PERFORMED IN A STATE OF

The-art Laboratory Facility

SAMPLES

(Oropharyngeal UTI Swabs)

TEST VIROKEY

KEY FEATURES

FAST TURNAROUND 24-72 HOURS

FLEXIBLE HIGH-THROUGHPUT RT-PCR

(Positive and Negative Controls inc.)

HIGH ANALYTICAL SPECIFICITY AND SENSITIVITY

EFFICIENT & RELIABLE

SIMPLIFIED REPORTS

FACILITY DESIGNED WITH CDC

SAFETY RECOMENDATIONS

PERSONALIZED EXPERIENCE

ACCESS TO WEB-PORTAL FOR RESULTS

WE PRODUCE RESULTS THAT MATTER

Sunrise Diagnostic Lab (SDL) has the utmost concern for the safety of our employees, patients, healthcare providers and general public.

We provide testing for COVID-10 available to patients who need to be tested and our team is working around the clock to perform those tests and deliver results.

Our professional staff is not only here to support in CoVID-19 testing efforts, we continue to laboratory testing needed by physicians to care for their patients through Sunrise Diagnostic Lab and Sunrise Clinical Labs.

You can count on us to continue providing highest quality medical laboratory testing you may need.

WHAT TO DO IF YOU OR YOUR LOVED ONES FEEL SICK

- Stay home except to get medical care.
- Stay in touch with your doctor. Call before you get medical care.
- Avoid public transportation.
- Separate yourself from other people in your home, this is known as home isolation .
- If you have a medical appointment that cannot be postponed, call your doctor 's office, and tell them you have or may have COVID-19. This will help the office protect themselves and other patients.
- If you are sick, you should wear a facemask, if available. You may need to improvise a facemask using a scarf or bandana.
- Cover your mouth and nose with a tissue when you cough or sneeze.
- Dispose: Throw used tissues in a lined trash can.
- Wash hands: Immediately wash your hands with soap and water for at least 20 seconds.
- Hand sanitizer: If soap and water are not available, use an alcohol -based hand sanitizer with at least 60% alcohol
- Avoid touching: Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid sharing personal household items
- Do not share dishes, drinking glasses, cups, eating utensils, towels, or bedding with other people in your home.
